Profile

Passionate software engineer student with a strong foundation in modern frontend and backend technologies. Experienced in building responsive, scalable web applications. Detail-oriented, quick learner, and driven by innovation and collaboration in dynamic development environments.

Skills

- Frontend Angular, React.js (with Redux), Tailwind CSS, Responsive Web Design
- Backend Node.js (NestJS, Express), Spring Boot (Java), WebSocket communication, JWT Authentication
- Databases MongoDB, MySQL, PostgreSQL
- Tools Git, GitHub, Postman, Swagger, Visual Studio Code, Visual Studio, IntelliJ IDEA
- DevOps Jenkins (CI/CD), Docker, DockerHub, Docker Compose, SonarQube, Nexus, Grafana, Prometheus

Projects

- 2025 **Skill Exchange Platform, *ESPRIT*, Tunis**
 - Fullstack application for skill and service exchange with messaging, JWT authentication, and real-time updates.
 - Used React.js and Redux on the frontend, NestJS and MongoDB on the backend, Redis for real-time events.
- 2024 **Symfony + Java Integration Project, *Academic Project*, Tunis**
 - Built a modular job application management system.
 - Symfony (PHP) handled user interface and admin panel; Spring Boot (Java) handled core business logic.
 - Implemented REST APIs and JWT authentication across services.
- Summer **Internship Project, *Company*, Tunis**
- 2024
 - Built an internal task tracking platform with Angular frontend and Spring Boot backend.
 - Implemented CRUD functionality, authentication, and status tracking.
 - Used MySQL as the primary database.

Languages

- Arabic Native
- French B2
- English B2

Soft Skills

Problem-solving, Team collaboration, Adaptability, Time management, Continuous learning

Interests

Web development, UI/UX design, Coding challenges, Learning new technologies
